

Privacy & Cookie Policy

Last updated: 24 June 2026

1. Who we are

This website (<https://bp-bj.pl>) is operated by:

Biuro Projektów Bartosz Jankojć ul. Tysiąclecia 2, 58-309 Wałbrzych, Poland Email: office@bp-bj.pl Phone: +48 664 980 056

For the purposes of the EU General Data Protection Regulation (GDPR), we are the **data controller** for personal data processed through this website.

2. Scope

This policy explains what cookies and similar technologies we use, what personal data we process when you visit this site, the legal basis for doing so, and the rights available to you.

3. Cookies we use

Essential cookies — necessary for the website to function (e.g. to remember your cookie choice and to deliver the page securely). They do not require your consent and are always active. They do not track you for analytics or marketing.

Analytics cookies — used only **after you give consent**. We use Google Analytics 4 to measure traffic and understand how visitors use the site, so we can improve it. If you reject analytics cookies, or close the banner without accepting, these cookies are **not** set and Google Analytics is **not** loaded.

Cookie	Provider	Purpose	Duration
_ga, _ga_Y3KECGD1JL	Google	Distinguish visitors and sessions for traffic measurement	up to 13 months

4. Google Analytics and international transfers

Our analytics are provided by **Google Ireland Limited / Google LLC** ("Google"), acting as our processor. When analytics cookies are enabled, your usage data is shared with Google for the purpose of generating aggregated traffic statistics on our behalf.

Google may process this data on servers located **outside the European Economic Area, including in the United States**. Such transfers are made under the **EU-U.S. Data Privacy Framework** and/or the European Commission's Standard Contractual Clauses, which provide an adequate level of protection.

We use Google Analytics for **measurement only**. We do not use it for advertising personalisation. Google Analytics 4 does not store your IP address; the IP is used only transiently to derive an approximate (city/country-level) location and is then discarded.

5. What data we process

When analytics are enabled, we process **usage data**, which may include: pages viewed, date and time of the visit, approximate geographic location (derived from IP, not stored), referral source, language, and device/browser information. This data is collected in a form that does not directly identify you.

6. Legal basis

- **Analytics cookies and related processing:** your **consent** — Article 6(1)(a) GDPR and the Polish Act of 12 July 2024 — Electronic Communications Law (Prawo komunikacji elektronicznej). Consent is voluntary and can be withdrawn at any time.
- **Essential cookies:** necessary to provide the service you requested and our legitimate interest in operating a secure, functioning website — Article 6(1)(f) GDPR.

7. Data retention

Analytics data is retained for the period configured in our Google Analytics property (by default up to 14 months), after which it is automatically deleted. Aggregated, non-identifying statistics may be kept longer.

8. Withdrawing consent

You can withdraw or change your consent at any time using the cookie banner on the site, or by clearing the cookies stored by your browser. Withdrawing consent does not affect the lawfulness of processing carried out before the withdrawal.

9. Your rights

Under the GDPR you have the right to: access your personal data; request rectification or erasure; restrict or object to processing; data portability; and **withdraw consent** at any time. To exercise these rights, contact us at office@bp-bj.pl.

You also have the right to lodge a complaint with the Polish supervisory authority:

Prezes Urzędu Ochrony Danych Osobowych (UODO) ul. Stawki 2, 00-193 Warszawa, Poland — <https://uodo.gov.pl>

10. Contact

For any questions about this policy or your personal data, contact: office@bp-bj.pl · +48 664 980 056

This document is a template provided for general guidance. Because it concerns legal obligations and a cross-border setup, we recommend having it reviewed by a data-protection specialist before publication.
